HEALTH HAZARD INFORMATION

HEALTH EFFECTS

FIRST AID

General Advice:

Remove contaminated clothing.

On skin contact:

Wash with soap and water. Seek medical attention in event of irritation.

On contact with eyes:

May cause irritation. Wash effected eyes for at least 15 minutes under running water with eyelids open.

On ingestion:

Rinse mouth and drink plenty of water.

PERSONAL PROTECTION EQUIPMENT

Hand Protection: Protective gloves. Impervious type required for prolonged or repeated contact (during mixing or washing up).

Eye Protection: Goggles.

Other Protective Equipment: Eye bath, safety shower, aprons.

General safety and hygiene measures: The usual precautions for handling chemicals must be observed. No adverse effects are expected. However, because fumes are occasionally observed arising from fabrics which are being heat cured, it is suggested that in accordance with good industrial hygienic that all heat curing equipment should be properly vented and exhausted to prevent irritation to eyes, nose and throat. (These fumes often arise from sizings, starches and other coatings which have been earlier applied to the textiles being printed.)
